ABOUT ME

Kevin has been developing leaders with a “better people, better business” philosophy for over 35 years. His consulting and management skills have been developed by training leaders in the non-profit, service, and for-profit sectors and his speaking engagements have taken him across North America, Europe, Africa, and Asia. Kevin leads from lessons he learned while surviving the wilderness of northern Canada having lived off-grid as well as training others in the effectiveness of **συνεργός** or “working together”. He is committed to bringing out the best in leaders, inspiring them toward their next level and compelling all to live lives of significance with joy and humor.

PAST CLIENTS

Kevin has partnered with non-profit organizations, helping them streamline operations, improve fundraising strategies, and maximize their social impact. In the public safety sector, he collaborates closely with first responders, developing strategies to improve emergency response times, enhance training programs, and implement cutting-edge technologies. His work with for-profit companies covers areas such as operational efficiency, organizational culture, and digital transformation.
