ABOUT ME

Dennis has been an Administrator/CEO for over 30 years in psychiatric, rehabilitation and rural hospitals. He started his career as a medical social worker which provided a great foundation for his life as a hospital CEO. Dennis has experience as a health/life coach, mentor, and presenter. He has worked hard to develop programs to improve the health status of communities in SE Kansas and was a major contributor to the development of the Community Health Action Resiliency Maximization (CHARM) plan for a county that could be expanded to other counties.

Dennis is a servant leader. He believes that he was put on this earth to serve others, and his focus is to do all he can to keep rural hospitals vibrant and to grow and develop healthcare leaders and medical providers. Work/life balance for CEOs and physicians is another passion of his, which he feels is greatly needed. His faith is his North Star.
